Subject: Volunteer and make a difference in your community

Dear Team,

We're excited to announce our partnership with Children's Hearings Scotland and offer you a unique opportunity to develop valuable skills while making a real impact in your community.

As a volunteer Panel Member, you'll receive specialised training to help support children and young people. It's an important role in which you will directly contribute to creating safer, more supportive communities across Scotland.

Explore this rewarding opportunity further on the Children's Hearings Scotland website and consider signing up as a potential Panel Member. Your involvement can help shape better futures for children and families throughout Scotland.
